

Rocky Point Archery Antelope Hunt 2025

Everything from the initial contact to departure was wonderful! The agenda was detailed and well thought out. The food, people, events, sleeping area and all were amazing! This event meant the world to me! It gave me hope again in America and our country. It made me realize that I am not alone and there are other members who have been through what I have. The community involved in this event was the best. They lifted my spirits so much! This whole event let me know America still has pockets of folks who believe in what I did and fully support my efforts. I truly needed to know America had my back. It was an emotional event for me, but it was very much needed. Thank you all for setting this up and volunteering your time, money, energy, and love for this event and showing us that America still cares.
